

Environmental Policy Statement

Culpan Medical is committed to minimising the impact of our activities on the environment.

The objectives of Culpan Medical in the implementation of this policy specifically include:

- Comply with all relevant environmental legislation.
- Minimise waste by evaluating operations and ensuring that they are as efficient as possible.
- Minimise toxic emissions through the selection of the source of our power requirements.
- Actively promote recycling both internally and amongst our customers and suppliers.
- Protect the health and safety of our employees and surrounding communities and ecosystems.
- Operate a travel policy that takes into account environmental issues as far as reasonably practical and encourages the use of feasible, alternative means of transport.

We will make every effort to ensure that environmental performance is an integral part of Culpan Medical performance and of the performance of all of our employees. We will measure and periodically report on our progress in realising these commitments.
